

## 2025 New Tours

Hawaii Forest & Trail is proud to announce an exciting new addition to our adventure lineup for 2025: the **Volcano, Chocolate, & Waterfall Adventure** – a one-of-a-kind experience that combines Hawaii Island's natural beauty, rich cultural heritage, and unforgettable flavors.

This carefully crafted journey begins with an adventure through the dramatic landscape of iconic Hawaii Volcanoes National Park. Explore some of our favorite, off-the-beaten-path trails and sights, and see how the historically large collapse of Halema'uma'u Crater in 2018 changed Kilauea forever.

Next, you'll journey to a lush 1,000-acre tropical fruit farm perched on the slopes of Maunakea in Hilo to discover the fascinating process of chocolate-making – from cacao tree to a delicious sweet treat. Indulge your senses as you learn how Hawaii's unique fertile lands and tropical climates create some of the world's finest chocolates.

The day concludes with a visit to the stunning Rainbow Falls, one of Hilo's most famous and beloved landmarks. This cascading waterfall, surrounded by lush greenery, offers a serene and breathtaking finale to your adventure.

Whether you're a nature enthusiast, a chocolate lover, or someone seeking an authentic taste of Hawaii, this tour offers the perfect combination of sights, stories, and flavors. Join us in celebrating the diverse beauty and culture of Hawaii Island's east side.
