WHAT SETS US APART...

Exclusive Land Access

With access to hundreds of thousands of acres of land not open to the public, we reach more private and restricted locations on Hawaii Island than any other tour operator. Exclusive sites include remote waterfalls in Kohala, private trust lands near the summit of Hualalai, and lava tubes on Hualalai and outside of Hawaii Volcanoes National Park.

Small Group Sizes

Each tour is limited to 10-12 passengers - one of the lowest guest-to-guide ratios in the industry. These intimate group sizes enhance comfort, create conversation and allow for personalization of tour experiences.

Expert Guides

Our handpicked cadre of guides come with strong academic backgrounds, and field experience, and undergo extensive training in safety, facilitation and interpretation. Our guides bring a real passion for Hawaii's natural world sharing stories of the land's natural and cultural resources, customizing tours based on group preferences and interests. This provides a more personal experience that inspires a deep connection and appreciation to our island home.

Fully Outfitted Adventures

Varying based on tour length and location, our adventures are comfortably outfitted with meals, snacks, and beverages. The necessary gear and safety equipment to trek and zip all-terrain are also provided. Plus, all access fees to parks and attractions are included in the tour price.

Stewardship - The 'I'iwi Fund

We founded this fund specifically to support local nonprofit conservation efforts and advocate for the conservation of Hawaii's native ecosystems, culture, and natural wonders. For every guest who joins us on an adventure, \$1 is donated to the Fund. Since inception, we've donated \$90,000 to various local non-profit organizations (as of Jan. 2024).
